Getting Started

Accessing the Admin Panel

1. Navigate to the Admin Page

- From any page on the LDAH website, scroll to the bottom
- Click on 'Admin Login' link
- Or directly visit: yourdomain.com/admin.html

2. Login

- Enter the admin password: `ldah2024`
- Click 'Login' button
- You'll be taken to the main dashboard

3. Security Note

- Keep the admin password secure
- The system uses Firebase for data management
- All changes are saved automatically to the cloud database

Dashboard Overview

Main Navigation Tabs

The admin panel has seven main sections accessible via tabs at the top:

1. FAQ Categories - Organize FAQ topics
2. FAQ Items - Manage individual questions and answers
3. Events - Create and manage upcoming events
4. Event Signups - View and manage volunteer signups for events
5. Volunteers - Post volunteer opportunities and review applications
6. Analytics - View website traffic and engagement metrics

Interface Elements

- Blue Action Buttons: Create new items
- Edit Icons (pencil): Modify existing content
- Delete Icons (trash): Remove items permanently
- Back Arrow: Return to previous screen
- Save Button: Confirm changes (appears in editing mode)

Managing Events

Overview

Events are time-based activities that appear on the Events page. They automatically show/hide based on dates and can now include PDF files (flyers, registration forms, information sheets) in addition to images.

Creating a New Event

1. Click the 'Events' tab
2. Click the '+ Create Event' button
3. Fill in all required information:

Event Details:

- Title: Event name (e.g., 'Parent Support Workshop')
- Description: Full event details, what to expect, who should attend
- Location: Full address or 'Virtual Event' if online
- Event Date: Select from calendar (YYYY-MM-DD format)
- Start Time: Event start (e.g., '6:00 PM')
- End Time: Event end (e.g., '8:00 PM')

Volunteer Signup Information (Optional):

- Signup Dates/Times: Add one or more dates/times when volunteers can help
- Custom Questions: Add specific questions for volunteers (e.g., 'What shift do you prefer?')
- When signup dates are added, a 'Sign Up to Volunteer' button appears on the event

Registration (Optional):

- Registration Link: URL for sign-up form or registration page
- Contact Email: Email for questions
- Contact Phone: Phone number for questions

Display Settings:

- Order: Number to control display order (lower = higher on page)
- Always Post: Toggle ON to keep event visible indefinitely
- Start Date: When event should appear on website
- End Date: When event should automatically hide

Visual Content (UPDATED):

- Event Image/PDF: Click to upload an image OR PDF file
 - Images: JPG or PNG recommended (1200x630 pixels ideal)
 - PDFs: Upload event flyers, registration forms, or information sheets
 - Maximum file size: 10MB
 - PDF files will display with a download button for users
4. Click 'Save Event'

Managing Event Signups & Volunteers

Overview

The Event Signups tab allows you to manage volunteer signups for events. This feature tracks who has signed up, what dates/times they selected, their contact information, and their participation status. Volunteers can sign up as individuals or groups, and you can track the total number of volunteers for each event date.

Viewing Event Signups

1. Click the 'Event Signups' tab
2. You'll see a list of all events that have volunteer signup capability
3. Events with pending signups show a red notification badge
4. Click on any event to view its volunteer signups

Signup Dashboard Statistics

When viewing an event's signups, you'll see four key statistics at the top:

- Total Volunteers: Counts all confirmed volunteers (individuals count as 1, groups count by their size)
- Pending: Number of signups awaiting response
- Contacted: Number of volunteers you've reached out to
- Confirmed: Number of confirmed volunteers

Signups Organized by Date

Signups are automatically grouped by the dates/times volunteers selected. Each date section shows:

- The date/time heading
- Total number of volunteers for that specific date
- All volunteer signups for that date, sorted by status (pending first)

Individual Signup Information

Click any volunteer's name to expand and view complete details:

- Name, email, and phone number
- Preferred contact method
- Participation type (Individual or Group)
- For groups: Group name and number of volunteers

- All dates/times they selected
- Answers to any custom questions
- Special accommodations or additional comments
- Submission timestamp

Managing Signup Status

Each signup can be assigned one of four status values using the dropdown menu:

- Pending (Yellow badge): New signup, not yet contacted
- Contacted (Blue badge): You've reached out to the volunteer
- Confirmed (Green badge): Volunteer is confirmed and scheduled
- Declined (Red badge): Volunteer declined or was not selected

Status changes are saved automatically and help you track your recruitment progress.

Adding Admin Notes

Each signup has an admin notes field for internal tracking:

1. Expand the volunteer's details
2. Find the 'Admin Notes' text area
3. Type your notes (best practice: include dates)
4. Notes auto-save when you click outside the field

Example notes:

- '12/5/24 - Called, left voicemail about orientation'
- '12/6/24 - Confirmed for December 15th morning shift'
- '12/7/24 - Sent reminder email with parking instructions'

Exporting Volunteer Lists

1. Click the 'Export CSV' button at the top of the signups page
2. A spreadsheet file downloads with all signup data
3. CSV includes: Name, Email, Phone, Dates Selected, Status, Group Info, Custom Answers
4. Use for creating contact lists, shift schedules, or attendance tracking

Emailing Volunteers

1. Expand a volunteer's details
2. Click the 'Email [Name]' button
3. Your default email program opens with their address pre-filled
4. Complete and send your message

Tip: Create email templates for common messages (confirmation, reminder, thank you)

Analytics Dashboard

Overview

The Analytics Dashboard provides insights into your website traffic, user engagement, and volunteer activity. Access it by clicking the green 'Analytics' button with the ■ icon in the admin panel.

Key Metrics

The dashboard displays four main metrics at the top:

- Total Page Views: Number of pages viewed across your entire site
- Total Volunteer Applications: Number of volunteer interest forms submitted
- Total Event Signups: Number of people who signed up to volunteer for events
- Most Viewed Page: The page with the highest traffic

Date Range Selection

Filter analytics data by time period using the dropdown menu:

- Last Month: Data from the past 30 days
- Last Quarter: Data from the past 3 months
- Last Year: Data from the past 12 months
- Custom Range: Select specific start and end dates

Page Views by Page

This section shows which pages on your website are receiving the most traffic. Use this data to:

- Identify popular content that resonates with visitors
- Discover which resources people are seeking most
- Prioritize updates for high-traffic pages
- Identify pages that might need more promotion

Events with Most Signups

See which events are generating the most volunteer interest. This helps you:

- Understand what types of volunteer opportunities attract people
- Plan future events based on popular themes
- Allocate resources to high-demand events
- Identify successful recruitment strategies

Viewing Daily Trends

The analytics dashboard shows activity over time, helping you identify:

- Peak traffic days and times
- Impact of promotional campaigns
- Seasonal patterns in volunteer interest
- Response to new content or events

Exporting Analytics Data

Use the print function in your browser to export analytics:

1. Click the browser's print button or press Ctrl+P (Cmd+P on Mac)
2. Select 'Save as PDF' as your printer
3. Save the PDF for board reports, grant applications, or record-keeping

Using Analytics for Decision Making

Regular review of analytics can guide important decisions:

- Content Strategy: Create more of what visitors find valuable
- Event Planning: Schedule events when engagement is highest
- Volunteer Recruitment: Replicate successful signup approaches
- Resource Allocation: Focus efforts on high-impact areas
- Stakeholder Reports: Demonstrate reach and impact to funders

Managing Volunteer Applications

Overview

The Volunteers tab shows all submitted volunteer applications (not event-specific signups). Applications display newest first with unread notifications. Each application includes personal information, availability, experience, and interest areas.

Managing Application Status

Each application can be marked with one of five statuses:

- New (Blue badge): Just submitted, not yet reviewed
- In Review (Yellow badge): Currently being evaluated
- Approved (Green badge): Accepted for volunteer position
- Declined (Red badge): Not selected at this time
- On Hold (Gray badge): Paused for future consideration

Adding Admin Notes

Track communications and decisions with internal notes:

1. Expand the application
2. Find the 'Admin Notes' section
3. Type your notes with dates
4. Notes auto-save automatically

Best Practices

Event Management with Volunteers

- Add volunteer signup dates/times when creating events that need volunteers
- Check Event Signups tab daily for new volunteer interest
- Respond to volunteer signups within 24-48 hours
- Update signup status as you progress through recruitment
- Export CSV lists for creating shift schedules and contact lists
- Use admin notes to track all volunteer communications

Using PDFs for Events

- Upload event flyers as PDFs to maintain exact formatting
- Use PDFs for registration forms that visitors can download and complete
- Include detailed information sheets as PDFs for complex events
- Keep PDF file sizes under 5MB for faster loading
- Test PDF downloads on mobile devices to ensure accessibility

Analytics Review Schedule

- Check analytics weekly to monitor trends
- Export monthly reports for board meetings
- Compare quarter-over-quarter data for growth tracking
- Use custom date ranges to measure campaign effectiveness
- Document insights and action items from analytics review

Content Management

- Update content regularly (weekly check recommended)
- Remove outdated information promptly
- Keep descriptions current and accurate
- Maintain consistent tone and style across all content

Security Best Practices

- Never share admin password
- Change password if compromised
- Log out when finished
- Treat volunteer data confidentially
- Do not share personal information

Troubleshooting

Problem: PDF won't upload for event

- Check: File size (should be under 10MB)
- Check: File format (must be PDF, JPG, or PNG)
- Try: Compressing the PDF using online tools
- Try: Converting to a different format

Problem: Event signups not showing

- Check: Signup dates/times were added to the event
- Check: Event is active and not expired
- Verify: Refresh the Event Signups tab
- Solution: Edit event and re-save to refresh data

Problem: CSV export button not working

- Check: Browser is allowing downloads
- Try: Different browser (Chrome, Firefox, Safari)
- Check: Download folder permissions
- Solution: Copy data manually if export fails

Problem: Analytics not loading

- Check: Internet connection
- Try: Refresh the page
- Try: Clear browser cache
- Solution: Try different date range

Problem: Changes aren't saving

- Check: Internet connection
- Try: Refresh the page and try again
- Solution: Ensure all required fields are filled

Problem: Images won't upload

- Check: File size (should be under 5MB)
- Check: File format (JPG or PNG only)

- Try: Compress the image using online tools
- Try: Different image file

Quick Reference Guide

Essential Shortcuts

Action	Steps
Create FAQ	FAQ Items tab → + Create FAQ
Create Event	Events tab → + Create Event
Add Event Volunteers	Events tab → Add signup dates/times
View Event Signups	Event Signups tab → Select event
Export Volunteer List	Event Signups → Export CSV button
Update Signup Status	Expand signup → Select status
View Analytics	Click green Analytics button (■)
Review Application	Volunteers tab → Click to expand
Email Volunteer	Expand details → Email button
Update Status	Expand item → Click status button
Edit Item	Find item → Click pencil icon
Delete Item	Find item → Click trash icon

Status Color Reference

Color	Meaning	Context
Blue	Always Posted / New / Contacted	Events, Opportunities, Applications, Signups
Green	Active / Approved / Confirmed	Events, Opportunities, Applications, Signups
Yellow	Scheduled / In Review / Pending	Events, Applications, Signups
Red	Expired / Declined	Events, Applications, Signups
Gray	On Hold	Applications
